Why is CAT Seen As a Dicult Exam?

Most aspirants keep solving questions **using the brute-force approach** that ‘bulldozes’ towards the answer

CAT test the candidate on concepts & time management.
With the wrong approach, you’ll end up taking 3x time for each problem

CAT requires rigorous practice to get in the problem solving mode. One can get confused with **too many resources for study, practice & test**

CAT is **not a dicult aptitude exam**, it only tests on your **structured thinking, strategy and time management**
